

Nay Ah Shing Head Lice Policy

Head checks will be done at the beginning of the school year, monthly, or as needed throughout the year in all Nay Ah Shing schools by a designated staff member. If live head lice is discovered on a student during the school day, the student with live head lice does not need to be sent home early from school. They will be allowed to go home on the bus at the end of the school day, be treated, and return to class after appropriate treatment has begun. The student will be given an information sheet on how to treat. Students with live crawling head lice will not be allowed re-admittance to the school until treatment has been received. Once treatment has been received, the student may return the next school day with a parent or guardian and will be rechecked by a designated staff member. If there are no live head lice or live nits, the student may return to class.
